This supplement implements and extends guidance of Air Force Manual (AFMAN) 23-110V2PT2CH25, *Bench Stock Support*, and AFMAN 23-110V2PT2_AFSPCSUP1. This supplement describes 45 SW procedures for use in conjunction with the basic AFMAN and AFSPC Supplement. It applies to all 45 SW activities, tenants and contractors operated or supported by the USAF Standard Base Supply System. This supplement does apply to Air Force Reserve Command and Air National Guard units.

25.12.3. Records Management will process a 16MOL inquiry to identify ISSL items prior to adding an MRA. If the inquiry reveals an ISSL justification code, then the proposed MRA will be carefully reviewed to determine if a corresponding reduction in the ISSL quantity is warranted.

25.16.3. Pick-up & Delivery will initiate replenishment action on all red flagged items and will utilize a green flag to indicate the item is on order, during the weekly walk-through of each organizational bench stock.

25.16.3.1. The Supply Manager elects to allow supported organizations that use CAMS to input their own bench stock replenishment.

25.16.3.1.1. (Added) Supported organization will identify to Base Supply if they desire to input bench stock replenishment via CAMS.

25.16.3.1.2. (Added) If supported organization desires to use CAMS for bench stock replenishment they will follow instructions in AFCSM 21-572V2.

25.17.2. The Supply Manager chooses the option of having the organization submit requests through Customer Operations to satisfy urgent bench stock requirements.

J. GREGORY PAVLOVICH, Brigadier General, USAF
Commander
